

Daubechies, Ingrid

Orthonormal bases of compactly supported wavelets. II: Variations on a theme. (English)

Zbl 0792.42018

SIAM J. Math. Anal. 24, No. 2, 499-519 (1993).

MSC:

42C40 Nontrigonometric harmonic analysis involving wavelets and other special systems

46E35 Sobolev spaces and other spaces of “smooth” functions, embedding theorems, trace theorems

Cited in **31** Documents

Keywords:

multiresolution analysis; orthonormal bases; wavelets with compact support; symmetry; regularity; scaling function
