

Wets, Roger J.-B.

Constrained estimation: Consistency and asymptotics. (English) Zbl 0800.62187
Appl. Stochastic Models Data Anal. 7, No. 1, 17-32 (1991).

MSC:

62F30 Parametric inference under constraints
62F12 Asymptotic properties of parametric estimators

Cited in **6** Documents

Keywords:

asymptotic normality; epi-consistency; consistency; estimation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
