

**Ackleh, Azmy S.; Fitzpatrick, Ben G.**

**Estimation of discontinuous parameters in general nonautonomous parabolic systems.** (English) Zbl 1043.65512

Kybernetika 32, No. 6, 543-556 (1996).

**MSC:**

**65M30** Numerical methods for ill-posed problems for initial value and initial-boundary value problems involving PDEs

Cited in **3** Documents

**65J20** Numerical solutions of ill-posed problems in abstract spaces; regularization

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
