

Hörmander, Lars

Hypoelliptic second order differential equations. (English) Zbl 0156.10701
Acta Math. 119, 147-171 (1967).

For a scan of this review see the [web version](#).

MSC:

35H10 Hypoelliptic equations

Cited in **12** Reviews
Cited in **876** Documents

Keywords:

second order hypoelliptic equations

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
