Ehrman, John R.
“Logical” arithmetic on computers with two’s complement binary arithmetic.  (English)

For a scan of this review see the web version.

MSC:
68Q05 Models of computation (Turing machines, etc.) (MSC2010)
68W10 Parallel algorithms in computer science
68M07 Mathematical problems of computer architecture
94C10 Switching theory, application of Boolean algebra; Boolean functions (MSC2010)

Keywords:
binary arithmetic; full-precision arithmetic; maximum significance arithmetic; unsigned operand arithmetic
