

Phelps, R. R.

Some topological properties of support points of convex sets. Proc. internat. Sympos. partial diff. Equ. Geometry normed lin. Spaces II. (English) Zbl 0252.46020

Isr. J. Math. 13, 327-336 (1972).

For a scan of this review see the [web version](#).

MSC:

46B03 Isomorphic theory (including renorming) of Banach spaces

46B10 Duality and reflexivity in normed linear and Banach spaces

Cited in 11 Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
