

**Segal, Graeme**

**Equivariant K-theory.** (English) Zbl 0199.26202

Publ. Math., Inst. Hautes Étud. Sci. 34, 129-151 (1968).

For a scan of this review see the [web version](#).

**MSC:**

**55N91** Equivariant homology and cohomology in algebraic topology

**19L47** Equivariant  $K$ -theory

Cited in **1** Review  
Cited in **179** Documents

**Keywords:**

topology

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
