

Karamardian, S.

Generalized complementarity problem. (English) Zbl 0218.90052
J. Optimization Theory Appl. 8, 161-168 (1971).

For a scan of this review see the [web version](#).

MSC:

90C33 Complementarity and equilibrium problems and variational inequalities (finite dimensions) (aspects of mathematical programming)
90C25 Convex programming

Cited in **1** Review
Cited in **108** Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
