

**Lutzer, David J.**

**Another property of the Sorgenfrey line.** (English) Zbl 0239.54015  
Compos. Math. 24, 359-363 (1972).

For a scan of this review see the [web version](#).

**MSC:**

**54D20** Noncompact covering properties (paracompact, Lindelöf, etc.)  
**54F05** Linearly ordered topological spaces, generalized ordered spaces, and partially ordered spaces

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
