

**McEliece, Robert J.**

**Weight congruence for  $p$ -ary cyclic codes.** (English) Zbl 0251.94008  
Discrete Math. 3, 177-192 (1972).

For a scan of this review see the [web version](#).

**MSC:**

**94B99** Theory of error-correcting codes and error-detecting codes

Cited in **2** Reviews  
Cited in **13** Documents

**Full Text:** [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
