

Noel, G.

Espaces de Banach ultraplats et espaces de Lindenstrauss-Pelczynski. (French) Zbl 0255.46053
Bull. Soc. Math. Fr., Suppl., Mém. 31-32, 257-263 (1972).

For a scan of this review see the [web version](#).

MSC:

- 46M05 Tensor products in functional analysis
- 46E30 Spaces of measurable functions (L^p -spaces, Orlicz spaces, Köthe function spaces, Lorentz spaces, rearrangement invariant spaces, ideal spaces, etc.)
- 46B99 Normed linear spaces and Banach spaces; Banach lattices

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
