

**Fischer, Arthur E.; Marsden, Jerrold E.**

**Linearization stability of the Einstein equations.** (English) Zbl 0274.58003  
Bull. Am. Math. Soc. 79, 997-1003 (1973).

For a scan of this review see the [web version](#).

**MSC:**

- 37J99** Dynamical aspects of finite-dimensional Hamiltonian and Lagrangian systems Cited in 28 Documents
- 58B10** Differentiability questions for infinite-dimensional manifolds
- 53C25** Special Riemannian manifolds (Einstein, Sasakian, etc.)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
