

Deschamps, J.

Fermetures i-generatrices - application aux fonctions booléennes permutantes. (French)

Zbl 0324.02007

Discrete Math. 13, 321-339 (1975).

For a scan of this review see the [web version](#).

MSC:

03B05 Classical propositional logic

94C10 Switching theory, application of Boolean algebra; Boolean functions (MSC2010)

06E05 Structure theory of Boolean algebras

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
