MSC:

- 11F27** Theta series; Weil representation; theta correspondences
- 14G10** Zeta functions and related questions in algebraic geometry (e.g., Birch-Swinnerton-Dyer conjecture)
- 22E50** Representations of Lie and linear algebraic groups over local fields
- 32N10** Automorphic forms in several complex variables
- 11R42** Zeta functions and L -functions of number fields
