

Baum, Paul; Fulton, William; MacPherson, Robert

Riemann-Roch for singular varieties. (English) Zbl 0332.14003

Publ. Math., Inst. Hautes Étud. Sci. 45, 101-145 (1975).

For a scan of this review see the [web version](#).

MSC:

14C15 (Equivariant) Chow groups and rings; motives

14B05 Singularities in algebraic geometry

14F05 Sheaves, derived categories of sheaves, etc. (MSC2010)

Cited in **15** Reviews
Cited in **106** Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
