

Chen, C. F.; Hsiao, C. H.

A Walsh series direct method for solving variational problems. (English) Zbl 0339.49017
J. Franklin Inst. 300, 265-280 (1975).

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
