

Krylov, N. V.

Sequences of convex functions and estimates of the maximum of the solution of a parabolic equation. (English) [Zbl 0362.35038](#)

Sib. Math. J. 17, 226-236 (1976).

For a scan of this review see the [web version](#).

MSC:

35K10 Second-order parabolic equations

35B05 Oscillation, zeros of solutions, mean value theorems, etc. in context of PDEs

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
