

**Eklof, Paul C.; Mekler, Alan H.**

**On constructing indecomposable groups in L.** (English) Zbl 0372.20042  
J. Algebra 49, 96-103 (1977).

For a scan of this review see the [web version](#).

**MSC:**

**20K99** Abelian groups  
**03E35** Consistency and independence results  
**03E55** Large cardinals  
**20K20** Torsion-free groups, infinite rank

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
