

Nevesenko, N. V.

Strict sums and semicontinuity below metric projections in linear normed spaces. (English)

Zbl 0408.41019

Math. Notes 23, 308-312 (1978).

MSC:

41A65 Abstract approximation theory (approximation in normed linear spaces and other abstract spaces)

41A50 Best approximation, Chebyshev systems

Cited in **1** Review
Cited in **4** Documents

Keywords:

Metric Projections in Linear Normed Spaces; Best Approximation; Approximation in Abstract Spaces

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
