

**Sierksma, Gerard**

**Non-negative matrices: The open Leontief model.** (English) Zbl 0409.90027  
Linear Algebra Appl. 26, 175-201 (1979).

For a scan of this review see the [web version](#).

**MSC:**

**91B66** Multisectoral models in economics  
**15A99** Basic linear algebra

Cited in **3** Reviews  
Cited in **14** Documents

**Keywords:**

Application of Linear Algebra; Open Input-Output Model

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
