MSC:

37A99 Ergodic theory
28D20 Entropy and other invariants

Cited in **4** Reviews
Cited in **151** Documents

Keywords:

strictly positive characteristic exponents; non-commutative ergodic theorem; upper bound for measure theoretic entropy of a differentiable map

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
