

Ong, S. H.; Lee, P. A.

The non-central negative binomial distribution. (English) Zbl 0432.62011
Biom. J. 21, 611-627 (1979).

For a scan of this review see the [web version](#).

MSC:

- 62E15 Exact distribution theory in statistics
- 62E10 Characterization and structure theory of statistical distributions
- 62P99 Applications of statistics
- 62F12 Asymptotic properties of parametric estimators

Cited in **2** Reviews
Cited in **24** Documents

Keywords:

non-central negative binomial distribution; Bessel function; neural counting; photon counting; mixtures; Polya-Aeppli; generalized negative hypergeometric; generalized Poisson; non-central geometric distributions

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
