

Żelazko, Wiesław

On some classes of ideals in commutative Banach algebras. (English) Zbl 0445.46038
Rend. Sem. Mat. Fis. Milano 48, 51-58 (1978).

For a scan of this review see the [web version](#).

MSC:

46J20 Ideals, maximal ideals, boundaries

46J10 Banach algebras of continuous functions, function algebras

Cited in 1 Review

Keywords:

non-removable ideal; joint topological divisors of zero; super-algebra; Silov boundary; uniform algebra

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
