

Mora-Camino, F.; Zmetek, L.

Planification decentralisee pour les systèmes de transport: Une approche mixte. (French)

Zbl 0445.90045

Comparison of automatic control and operational research techniques applied to large systems analysis and control, IFAC/IFORS Symp., Toulouse 1979, 113-119 (1980).

For a scan of this review see the [web version](#).

MSC:

90C08 Special problems of linear programming (transportation, multi-index, data envelopment analysis, etc.)

90B05 Inventory, storage, reservoirs

90C99 Mathematical programming

Keywords:

trip distribution problem; transportation planning; duality theory; geometric programming; two-level planning structure; multifirm case; large scale systems; concave programming; information theory; logistics
