

Krantz, Steven G.

Holomorphic functions of bounded mean oscillation and mapping properties of the Szegő projection. (English) [Zbl 0456.32004](#)

Duke Math. J. 47, 743-761 (1980).

For a scan of this review see the [web version](#).

MSC:

32A40 Boundary behavior of holomorphic functions of several complex variables

Cited in **12** Documents

32A35 H^p -spaces, Nevanlinna spaces of functions in several complex variables

46J15 Banach algebras of differentiable or analytic functions, H^p -spaces

31B25 Boundary behavior of harmonic functions in higher dimensions

31C15 Potentials and capacities on other spaces

Keywords:

bounded mean oscillation; interpolation theory; H_2 ; Szegő projections of function spaces
