

Bedford, Eric; De Bartolomeis, Paolo

Levi flat hypersurfaces which are not holomorphically flat. (English) Zbl 0459.32007
Proc. Am. Math. Soc. 81, 575-578 (1981).

For a scan of this review see the [web version](#).

MSC:

32V40 Real submanifolds in complex manifolds
32T99 Pseudoconvex domains
57R30 Foliations in differential topology; geometric theory

Cited in **8** Documents

Keywords:

real analytic smooth hypersurface; extension of holomorphic foliation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
