MSC:

- [35B25](#) Singular perturbations in context of PDEs
- [35J25](#) Boundary value problems for second-order elliptic equations
- [35J40](#) Boundary value problems for higher-order elliptic equations
- [35A08](#) Fundamental solutions to PDEs
- [35A22](#) Transform methods (e.g., integral transforms) applied to PDEs

Keywords:

singular perturbation; Dirichlet boundary operator; Fourier transform; Poisson kernel
