

**Cline, Randall E.**

**Note on an extension of the Moore-Penrose inverse.** (English) Zbl 0468.15003  
[Linear Algebra Appl.](#) 40, 19-23 (1981).

For a scan of this review see the [web version](#).

**MSC:**

**15A09** Theory of matrix inversion and generalized inverses  
**15B33** Matrices over special rings (quaternions, finite fields, etc.)

Cited in **3** Documents

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
