

Enss, V.; Simon, B.

Finite total cross-sections in nonrelativistic quantum mechanics. (English) Zbl 0471.35065
Commun. Math. Phys. 76, 177-209 (1980).

For a scan of this review see the [web version](#).

MSC:

35P25 Scattering theory for PDEs
81U05 2-body potential quantum scattering theory

Cited in **2** Reviews
Cited in **23** Documents

Keywords:

total cross-sections; two cluster scattering; Coulomb scattering

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
