

van Mill, Jan

The reduced measure algebra and a K_1 -space which is not K_0 . (English) Zbl 0498.54017
Topology Appl. 13, 123-132 (1982).

MSC:

- 54C20 Extension of maps
- 54C35 Function spaces in general topology
- 54D35 Extensions of spaces (compactifications, supercompactifications, completions, etc.)

Cited in **1** Review
Cited in **3** Documents

Keywords:

monotone extender; K_0 -space; K_1 -space; nodec space; Luzin space; extremally disconnected space; monotone extension property; reduced measure algebra; CH; hereditarily Lindelöf separable K_1 -space; extremally disconnected dense in itself compact space; weight; dense subspace; dense subspace of the Stone space of the reduced measure algebra; Lindelöf extension of the integers
