

Sedlacek, Steven

A direct method for minimizing the Yang-Mills functional over 4- manifolds. (English)

Zbl 0506.53016

Commun. Math. Phys. 86, 515-527 (1982).

For a scan of this review see the [web version](#).

MSC:

53C05 Connections, general theory

53C80 Applications of global differential geometry to the sciences

55R40 Homology of classifying spaces and characteristic classes in algebraic topology

Cited in **1** Review
Cited in **41** Documents

Keywords:

method of minimizing sequences; Yang-Mills connection; compact 4- manifolds; Pontryagin class

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
