

Gurchenkov, S. A.

Varieties of nilpotent lattice-ordered groups. (English. Russian original) Zbl 0517.06015
Algebra Logic 21, 331-339 (1983); translation from *Algebra Logika* 21, No. 5, 499-510 (1982).

For a scan of this review see the [web version](#).

MSC:

06F15 Ordered groups
06B20 Varieties of lattices
08B15 Lattices of varieties

Cited in 1 Document

Keywords:

solvable l-groups; varieties of r-nilpotent l-groups; bases of identities; axiomatic rank

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
