

Shimura, Goro

Algebraic relations between critical values of zeta functions and inner products. (English)

Zbl 0518.10032

Am. J. Math. 105, 253-285 (1983).

Summary:

Reviewer: [M. Muro](#)

For a scan of this review see the [web version](#).

MSC:

11F67 Special values of automorphic L -series, periods of automorphic forms, cohomology, modular symbols

11F25 Hecke-Petersson operators, differential operators (one variable)

Cited in **5** Reviews
Cited in **18** Documents

Keywords:

Hecke operators; construction of zeta function; algebraicity
