

Mikles, Jan

Optimal control of a class of the discrete-time distributed-parameter systems. (English)

Zbl 0523.93042

Kybernetika 19, 483-490 (1983).

For a scan of this review see the [web version](#).

MSC:

93C55 Discrete-time control/observation systems

93D05 Lyapunov and other classical stabilities (Lagrange, Poisson, L^p , l^p , etc.) in control theory

93C05 Linear systems in control theory

93B50 Synthesis problems

Keywords:

optimal feedback; discrete-time distributed-parameter systems; Lyapunov's direct method
