Koubek, V.; Pták, P.
Limits in generalized algebraic categories – contravariant case. (English) Zbl 0398.18006

For a scan of this review see the web version.

MSC:
18C99 Categories and theories
18A30 Limits and colimits (products, sums, directed limits, pushouts, fiber products, equalizers, kernels, ends and coends, etc.)

Keywords:
dualization of limits; contravariant set functors; generalized algebraic categories; weak initial object
