

Zhukov, M. Yu.; Kolesov, V. V.; Tsyvenkova, O. A.

Numerical analysis of the stability of nonisothermal Couette flow. (English. Russian original)

[Zbl 0677.76036](#)

Fluid Dyn. **23**, No. 5, 701-706 (1988); translation from *Izv. Akad. Nauk SSSR, Mekh. Zhidk. Gaza* 1988, No. 5, 70-76 (1988).

MSC:

[76E15](#) Absolute and convective instability and stability in hydrodynamic stability

[76U05](#) General theory of rotating fluids

[76R05](#) Forced convection

[80A20](#) Heat and mass transfer, heat flow (MSC2010)

Keywords:

[stability of convective motion](#); [liquid between two rotating heated cylinders](#); [absence of external forces](#); [Oberbeck-Boussinesq model](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
