

**Hlavacek, Ivan**

**Dual finite element analysis for unilateral boundary value problems.** (English) Zbl 0416.65070  
*Apl. Mat.* 22, 14-51 (1977).

For a scan of this review see the [web version](#).

**MSC:**

**65N30** Finite element, Rayleigh-Ritz and Galerkin methods for boundary value problems involving PDEs Cited in 3 Documents  
**35J25** Boundary value problems for second-order elliptic equations

**Keywords:**

dual approach; bilateral boundary value problems; elliptic equations; Signorini's type; model problems; asymptotic order of convergence; finite element approximation; numerical solution; a posteriori error estimates; two-sided estimates

**Full Text:** [EuDML](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
