

Harrell, Evans M.

Double wells. (English) Zbl 0445.35036
Commun. Math. Phys. 75, 239-261 (1980).

For a scan of this review see the [web version](#).

MSC:

- [35J10](#) Schrödinger operator, Schrödinger equation
- [35P15](#) Estimates of eigenvalues in context of PDEs
- [35P20](#) Asymptotic distributions of eigenvalues in context of PDEs
- [35Q99](#) Partial differential equations of mathematical physics and other areas of application
- [81T99](#) Quantum field theory; related classical field theories

Cited in **4** Reviews
Cited in **66** Documents

Keywords:

Schrödinger equation; eigenvalues; approximate degeneracy of eigenvalues; quantum field theory; double wells

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
