

Wang, Meiyu; Yan, Fengli; Gao, Ting; Li, Youcheng

Simultaneous quantum state teleportation via the locked entanglement channel. (English)

Zbl 1146.81309

Int. J. Quantum Inf. 6, No. 1, 201-207 (2008).

MSC:

81P68 Quantum computation

94A05 Communication theory

Cited in 2 Documents

Keywords:

teleportation; locked entanglement channel; unitary operator

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
