

Murakami, Jun; Nagamoto, Koyokazu

Logarithmic knot invariants arising from restricted quantum groups. (English) Zbl 1210.57016
Int. J. Math. 19, No. 10, 1203-1213 (2008).

MSC:

57M27 Invariants of knots and 3-manifolds (MSC2010)

17B37 Quantum groups (quantized enveloping algebras) and related deformations

Cited in **2** Reviews
Cited in **6** Documents

Keywords:

projective modules; restricted quantum group; colored Alexander invariants; conformal field theories

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
