RelView and Rath – two systems for dealing with relations. (English) Zbl 1203.68319

de Swart, Harrie (ed.) et al., Theory and applications of relational structures as knowledge instruments. COST Action 274, TARSKI. Revised papers. Berlin: Springer (ISBN 3-540-20780-5/pbk). Lect. Notes Comput. Sci. 2929, 1-16 (2003).

Summary: In this paper we present two systems for dealing with relations, the RelView and the Rath system. After a short introduction to both systems we exhibit their usual domain of application by presenting some typical examples.
