

Ochakovskaya, O. A.

Geometric criteria for holomorphy of functions. (English. Russian original) Zbl 1176.31003
Dokl. Math. 79, No. 3, 428-429 (2009); translation from Dokl. Akad. Nauk, Ross. Akad. Nauk 426, No. 6, 738-739 (2009).

MSC:

31A05 Harmonic, subharmonic, superharmonic functions in two dimensions
30A99 General properties of functions of one complex variable

Keywords:

harmonic function; analytic function

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
