You, Zhaoyong; Xu, Zongben
Ergodic convergence for fixed points and variational inequality of a class of nonlinear mappings. (Chinese. English summary) [Zbl 0603.47046]
J. Xi’an Jiaotong Univ. 19, No. 2, 1-10 (1985).

MSC:
47H10 Fixed-point theorems
47H07 Monotone and positive operators on ordered Banach spaces or other ordered topological vector spaces

Keywords:
Ishikawa’s iteration; fixed points; quasi-contractive hemicontinuous self-mapping; variational inequality of monotone mappings
