On completely Ramsey sets. (English) [Zbl 0632.04005](#)
[Fundam. Math.](#) 127, 127-132 (1987).

We consider completely Ramsey sets. Our main result says that the union of less than $\kappa(N^*)$ of completely Ramsey sets is completely Ramsey and the union of $\kappa(N^*)$ of completely Ramsey sets can be a set which is not completely Ramsey.
