

Bulnes, Francisco (ed.)

Orbital integrals on reductive Lie groups and their algebras. (English) Zbl 1348.43001
[s.l.]: InTech (ISBN 978-953-511-007-1/hbk+ebook). 194 p. (2013).

Publisher's description: The purpose is to present a complete course on global analysis topics and establish some orbital applications of the integration on topological groups and their algebras to harmonic analysis and induced representations in representation theory.

The articles of this volume will not be indexed individually.

MSC:

- 43-02** Research exposition (monographs, survey articles) pertaining to abstract harmonic analysis
- 43A80** Analysis on other specific Lie groups
- 22E30** Analysis on real and complex Lie groups
- 00B15** Collections of articles of miscellaneous specific interest
