

Zhong, Hao; Cai, Tianxin

On the Lucas property of linear recurrent sequences. (English) Zbl 1428.11036
Int. J. Number Theory 13, No. 6, 1617-1625 (2017).

MSC:

11B50 Sequences (mod m)

11B39 Fibonacci and Lucas numbers and polynomials and generalizations

Cited in **1** Review
Cited in **1** Document

Keywords:

Lucas property; Fibonacci sequences; Lucas numbers; linear recurrent sequences

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
