**A note on geometry of special Hermitian manifolds.** (English) Zbl 1386.53023  
*Lobachevskii J. Math.* 39, No. 1, 20-24 (2018).

Summary: It is proved that the almost contact metric structures on totally geodesic and 1-type hypersurfaces in special Hermitian manifolds have identical properties.

**MSC:**

**53B35** Local differential geometry of Hermitian and Kählerian structures  
**53B25** Local submanifolds

Cited in 1 Document

**Keywords:**

almost contact metric structure; hypersurface; special Hermitian manifold
