Horn, Roger A.; Johnson, Charles R.
Matrix analysis. Reprinted with corrections. (English) Zbl 0704.15002

See the review of the first edition (1985; Zbl 0576.15001).

MSC:
15-01 Introductory exposition (textbooks, tutorial papers, etc.) pertaining to linear algebra
65Fxx Numerical linear algebra
15A18 Eigenvalues, singular values, and eigenvectors
15A21 Canonical forms, reductions, classification

Keywords:
matrix analysis; textbook; unitary equivalence; canonical forms; eigenvalue perturbations
