

Osthus, Dave; Vander Wiel, Scott A.; Hoffman, Nelson M.; Wysocki, Frederick J.
Prediction uncertainties beyond the range of experience: a case study in inertial confinement fusion implosion experiments. (English) [Zbl 1430.62263](#)
SIAM/ASA J. Uncertain. Quantif. 7, 604-633 (2019).

MSC:

62P35 Applications of statistics to physics
62-08 Computational methods for problems pertaining to statistics

Keywords:

model form error; prediction uncertainties; discrepancy modeling; inertial confinement fusion
