

Jiménez Rios, Alejandro; O'Dwyer, Dermot

Numerical modeling of cob's nonlinear monotonic structural behavior. (English) Zbl 07205455
Int. J. Comput. Methods 17, No. 5, Article ID 1940013, 15 p. (2020).

MSC:

- 74 Mechanics of deformable solids
- 65 Numerical analysis

Keywords:

cob; FEM; ANSYS; ABAQUS

Software:

ABAQUS; ANSYS; APDL

Full Text: [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
